PROFESSIONAL SUMMARY

Results-oriented Community Pharmacist and Shift Manager with experience in retail pharmacy operations, medication dispensing, patient counseling, inventory control, regulatory compliance, and team leadership in fast-paced healthcare environments. Known for maintaining safe medication practices, dependable service quality, and efficient day-to-day pharmacy operations while supporting strong customer and patient experiences. Brings an analytical mindset shaped by hands-on experience reviewing sales, inventory, and operational reports to identify improvement opportunities and support informed decisions. Currently pursuing structured development in Business Intelligence and Data Analytics, including Power BI, SQL Server, Python, and Microsoft data technologies, while continuing to build on a strong foundation in pharmacy operations and patient care.

CORE COMPETENCIES

PROFESSIONAL EXPERIENCE

Community Pharmacist | Shift Manager | BinDawood Holding (formerly Zahrat Al Rawdah Pharmacies) | Jeddah, Saudi Arabia
Oct 2022 – Present

- Deliver prescription and over-the-counter medications accurately while upholding patient safety, regulatory compliance, and high standards of pharmaceutical care.
- Guide patients on medication use, treatment adherence, disease management, and preventive healthcare, helping promote safe usage and a positive service experience.
- Coordinate daily pharmacy workflow and team activity to sustain service quality, dispensing accuracy, and efficient operations in a fast-paced retail setting.
- Optimize inventory replenishment, expiry monitoring, shrink control, and stock availability to reduce waste and support uninterrupted pharmacy operations.
- Evaluate sales, inventory, and operational reports to identify improvement opportunities and contribute to stronger day-to-day pharmacy performance.

Hospital Pharmacist | Ministry of Health | Egypt
Jun 2021 – Oct 2022

- Verified and dispensed medications in accordance with physician prescriptions, hospital protocols, and patient safety standards.
- Assessed prescriptions for dosage accuracy, potential drug interactions, and therapeutic appropriateness to support safe and effective medication therapy.
- Advised patients on medication use, adverse effects, storage requirements, and treatment adherence while partnering with physicians and other healthcare professionals to support continuity of care.

Community Pharmacist | Seif Pharmacy | North Coast, Egypt
Apr 2021 – Sep 2021

- Provided patient-centered pharmaceutical care by dispensing prescription and OTC medications and offering practical guidance on minor ailments and self-care options.
- Recommended healthcare, skincare, and wellness products based on individual patient needs, helping strengthen customer satisfaction and appropriate product selection.
- Maintained inventory control, merchandising standards, and daily pharmacy support activities to preserve stock readiness, organized workflow, and service continuity.

Branch Manager | Elsawaf Pharmacy | Fifth Settlement, Egypt

2019 – 2021

- Directed day-to-day branch operations to maintain efficient workflow, service consistency, and high standards of customer care in a retail pharmacy setting.
- Oversaw staff scheduling, cash reconciliation, and operational compliance to reinforce accountability, smooth branch operations, and dependable service delivery.
- Strengthened purchasing, supplier coordination, and inventory management practices while monitoring branch performance to improve product availability and operational efficiency.

EDUCATION

Bachelor of Pharmacy (B.Pharm) | Faculty of Pharmacy, Al-Azhar University, Egypt | 2014 – 2019

CERTIFICATIONS

- Customer Analytics | The Wharton School (Coursera)

PROFESSIONAL DEVELOPMENT IN ANALYTICS

AdventureWorks End-to-End Customer Analytics Platform

GitHub: AdventureWorks Repository

- Completed an end-to-end customer analytics project using SQL Server, T-SQL, SSIS, Power BI, DAX, Python, and Excel as part of ongoing Business Intelligence and Data Analytics development.
- Engineered a layered Bronze, Silver, and Gold architecture with metadata-driven ETL processes and a star schema to deepen practical capability in data warehousing and reporting.
- Translated customer analytics concepts into reporting on customer behavior, segmentation, purchasing patterns, revenue, and profitability to build hands-on experience with business-focused analysis.

Global Superstore BI Analysis

GitHub: Global Superstore Repository

- Developed a Power BI analytics project using Power Query, DAX, Excel, and star schema modeling to strengthen practical skills in sales, profitability, customer, and regional trend analysis.
- Explored customer lifetime value, churn analysis, cohort analysis, Pareto analysis, and product performance analysis to expand hands-on experience with business analysis techniques.
- Produced dashboards and drill-through views that converted analytical findings into clear insights and recommendations for business decision-making.
