PROFESSIONAL SUMMARY

Results-oriented Community Pharmacist and Shift Manager with experience in retail pharmacy operations, patient counseling, inventory management, regulatory compliance, and team leadership in high-volume healthcare environments. Proven ability to support workflow efficiency, maintain high standards of patient care, and contribute to operational and business performance. Transitioning into Business Intelligence and Data Analytics by combining healthcare domain expertise with hands-on experience in SQL Server, Power BI, DAX, SSIS, SSAS Tabular, Python, Excel, and data modeling. Developed end-to-end analytics projects involving ETL pipelines, data warehousing, semantic models, interactive dashboards, and customer analytics to support data-driven decision-making, improve business performance, and deliver measurable value.

CORE COMPETENCIES

Community Pharmacy • Retail Pharmacy Operations • Medication Dispensing • Patient Counseling • Inventory Management • Team Leadership • Regulatory Compliance • Customer Service • Business Intelligence • Data Analysis • Dashboard Development • Data Visualization • KPI Reporting • Power BI • SQL Server • SSMS • T-SQL • DAX • Power Query • ETL • SSIS • SSAS Tabular • Data Modeling • Star Schema Design • Python • Pandas • NumPy • Excel • Git • GitHub • Visual Studio

PROFESSIONAL EXPERIENCE

Community Pharmacist | Shift Manager | BinDawood Holding (formerly Zahrat Al Rawdah Pharmacies) | Jeddah, Saudi Arabia
Oct 2022 – Present

- Deliver pharmaceutical care by accurately dispensing prescription and over-the-counter medications while ensuring patient safety and compliance with Saudi healthcare regulations.
- Provide patient counseling on medication use, treatment adherence, disease management, and preventive healthcare to support positive therapeutic outcomes and customer trust.
- Supervise daily pharmacy operations, coordinate workflow, and support team performance to maintain service quality, dispensing accuracy, and operational efficiency in a fast-paced retail environment.
- Manage inventory replenishment, expiry monitoring, shrink reduction, and stock availability to minimize waste and support uninterrupted pharmacy operations.
- Analyze sales, inventory, and operational performance reports to support data-driven decision-making and improve pharmacy performance.

Hospital Pharmacist | Ministry of Health | Egypt
Jun 2021 – Oct 2022

- Dispensed medications accurately according to physician prescriptions while ensuring compliance with hospital protocols and patient safety standards.
- Reviewed prescriptions for dosage accuracy, potential drug interactions, and therapeutic appropriateness before dispensing.
- Educated patients on medication usage, adverse effects, storage requirements, and treatment adherence, and collaborated with physicians and healthcare professionals to support safe medication therapy.

Community Pharmacist | Seif Pharmacy | North Coast, Egypt
Apr 2021 – Sep 2021

- Dispensed prescription and OTC medications while delivering patient-centered pharmaceutical care and counseling on minor ailments and self-care recommendations.
- Recommended healthcare, skincare, and wellness products based on individual patient needs while maintaining high customer satisfaction.
- Supported inventory control, merchandising, and daily pharmacy operations to maintain stock readiness and service continuity.

Branch Manager | Elsawaf Pharmacy | Fifth Settlement, Egypt
2019 – 2021

- Managed day-to-day branch operations, ensuring efficient workflow and high standards of customer service in a retail pharmacy setting.
- Supervised staff scheduling, cash reconciliation, and operational compliance to maintain consistency and accountability.
- Coordinated purchasing, supplier communication, and inventory management, and monitored branch performance to support process improvement and product availability.

EDUCATION

Bachelor of Pharmacy (B.Pharm) | Faculty of Pharmacy, Al-Azhar University, Egypt | 2014 – 2019

CERTIFICATIONS

- Microsoft Certified: Power BI Data Analyst Associate (PL-300) | Microsoft
- Associate Data Scientist Career Track (In Progress) | DataCamp
- Python for Data Analysis: Pandas & NumPy | Maven Analytics (Udemy)
- Microsoft Power BI Data Analyst Professional Certificate | Microsoft & Coursera
- Statistics and Data Analysis with Excel | University of Colorado (Coursera)
- Operations Analytics | The Wharton School (Coursera)
- Customer Analytics | The Wharton School (Coursera)

PROJECTS

AdventureWorks End-to-End Customer Analytics Platform
GitHub: AdventureWorks Repository

- Built a modern end-to-end analytics solution that transformed raw AdventureWorks OLTP data into a business-ready analytical platform using SQL Server, T-SQL, SSIS, dimensional modeling, Power BI, DAX, Python, and Excel.
- Designed a layered Bronze/Silver/Gold architecture, developed metadata-driven SSIS ETL pipelines with control tables for dynamic source-to-target mapping, and engineered a Gold-layer star schema with validation logic and automated load procedures.
- Translated customer analytics concepts into executive and analytical reporting focused on customer behavior, segmentation, purchasing patterns, revenue, profitability, predictive customer intelligence, and decision-ready dashboarding.

Global Superstore BI Analysis
GitHub: Global Superstore Repository

- Developed a Power BI business intelligence solution using Power Query, DAX, Excel, and star schema modeling to analyze sales performance, profitability, customer behavior, and regional trends.
- Applied Customer Lifetime Value (CLV), churn analysis, cohort retention analysis, weighted product ranking, dynamic Pareto analysis, and advanced time-intelligence measures to identify high-value customers, diagnose profit erosion, and support strategic decisions.
- Designed executive dashboards, customer and product drill-through views, and business-oriented insights and recommendations to support fast, data-driven decision-making.
