PROFESSIONAL SUMMARY

BI and data analyst with a SQL Server, Power BI (PL-300 certified) and Python stack, and seven years in pharmacy operations across Egypt and Saudi Arabia. Built an end-to-end customer analytics platform: metadata-driven SSIS pipelines into a Bronze/Silver/Gold warehouse (7,100+ lines of T-SQL), a Power BI model with 60 DAX measures, and BG/NBD and Gamma-Gamma models scoring 16,300 customers, validated on a 90-day holdout. Brings first-hand knowledge of pharmacy retail, inventory, expiry and shrink, and team leadership to healthcare and retail analytics.

TECHNICAL SKILLS

Data Engineering: SQL Server, T-SQL, stored procedures, SSIS (metadata-driven ETL), data warehousing (Bronze/Silver/Gold), dimensional modeling, star schema

Business Intelligence: Power BI, DAX, Power Query, semantic modeling, KPI reporting, Excel

Python & Analytics: pandas, NumPy, statsmodels, scikit-learn, lifetimes (BTYD), SQLAlchemy; RFM, cohort, CLV and churn analysis

Tools: SSMS, Visual Studio, Git, GitHub

PROJECTS

AdventureWorks End-to-End Customer Analytics Platform GitHub repository

- Built a Bronze/Silver/Gold SQL Server warehouse (17 source tables → 6 dimensions, 7 facts) with metadata-driven SSIS pipelines and control tables for dynamic source-to-target mapping; 7,100+ lines of T-SQL with validation logic and automated load procedures.
- Modeled customer behavior with RFM segmentation, cohort retention and Python BTYD models (BG/NBD, Gamma-Gamma) scoring 16,300 customers on survival probability, 30/90-day purchases and expected order value; validated on a 90-day holdout against a simple baseline, with predictions written back to the warehouse.
- Delivered a Power BI semantic model (60 DAX measures) with executive, segmentation, retention and forecasting pages and a customer action table for targeting.

Global Superstore BI Analysis GitHub repository

- Found 74.6% lifetime customer churn and showed that Technology drives 45% of profit vs 19% from Furniture, with 58% of sales at 0–10% discount, to direct pricing and retention priorities.
- Built a star schema and DAX layer for CLV, churn, cohort retention, dynamic Pareto and time intelligence, with customer and product drill-through views.

PROFESSIONAL EXPERIENCE

Community Pharmacist & Shift Manager | BinDawood Holding, JeddahOct 2022 – Present

- Supervise daily operations and the pharmacy team during shift, coordinating workflow to keep dispensing accurate and service fast in a high-volume retail setting.
- Manage inventory replenishment, expiry monitoring and shrink reduction to minimize waste and keep stock available.
- Analyze sales, inventory and operational performance reports to support decisions on stock, staffing and branch performance.

Hospital Pharmacist | Ministry of Health, EgyptJun 2021 – Oct 2022

- Reviewed prescriptions for dosage, interactions and appropriateness, and worked with physicians to support safe medication therapy.

Community Pharmacist | Seif Pharmacy, North Coast, EgyptApr 2021 – Sep 2021

- Dispensed and counseled on prescription and OTC products and supported inventory control and merchandising.

Branch Manager | Elsawaf Pharmacy, Fifth Settlement, Cairo2019 – 2021

- Ran branch operations: staff scheduling, cash reconciliation, purchasing, supplier communication and inventory, monitoring branch performance to improve availability.

CERTIFICATIONS & TRAINING

- **Microsoft Certified: Power BI Data Analyst Associate (PL-300)** | Microsoft | 2025
- Associate Data Scientist in Python Career Track (in progress) | DataCamp
- Python for Data Analysis: Pandas & NumPy | Maven Analytics
- Microsoft Power BI Data Analyst Professional Certificate | Microsoft & Coursera
- Customer Analytics; Operations Analytics | The Wharton School (Coursera)
- Statistics and Data Analysis with Excel | University of Colorado (Coursera)

EDUCATION

Bachelor of Pharmacy (B.Pharm) | Faculty of Pharmacy, Al-Azhar University, Egypt2014 – 2019

LANGUAGES

Arabic: Native | English: Professional working proficiency
